Diabetes (Spanish Edition)

Synopsis

Segun Andreas Moritz, la diabetes, en la mayoría de los casos, no es una enfermedad, sino un mecanismo de proteccion o supervivencia del organismo para evitar las consecuencias fatales de una dieta y un estilo de vida poco saludables. En la diabetes, el desequilibrio del nivel de azucar en sangre no es una enfermedad en si, sino un sintoma, pero millones de personas fallecen por su causa.. Este libro aporta datos fundamentales acerca de las diferentes causas que originan la diabetes y la manera de evitarlas. Del mismo modo que existe un mecanismo que desencadena la diabetes, existe otro para acabar con ella. ¡Descubralo! / According to Andreas Moritz, diabetes is not a disease; in the vast majority of cases, it is a complex mechanism of protection or survival that the body chooses to avoid the possibly fatal consequences of an unhealthy diet and lifestyle; millions of people suffer or die unnecessarily from such consequences. The imbalanced blood sugar level in diabetes is but a symptom of illness, not the illness itself. By developing diabetes, the body is neither doing something wrong nor is it trying to commit suicide. Diabetes - No More provides you with essential information on the various causes of diabetes and how anyone can avoid them.

Customer Reviews

Recomiendo este libro para desmitificar el concepto que actualmente se tiene de la Diabetes, para entender que somos un todo y si escuchamos a nuestro cuerpo y le damos el mantenimiento necesario, este simplemente tiene las puertas abiertas para recuperar por si mismo el equilibrio. Es la primera vez que leo sobre las verdaderas causas de esta enfermedad, y sobre una solucion que

es real y que no incluye medicamentos, sino mas bien, un cambio en nuestros habitos y formas de pensar, y una toma de consciencia. Es un libro pequeÃ±o pero que vale oro, dice todo lo que necesita decir.

Muy interesante no solo las personas diabeticas deberÃ¡n leer este libro si no todo el mundo me gusta mucho este libro 5 estrellas y mas leer otros libros de este autor es necesario para entender mÃ¡s acerca de salud

Una lectura obligada para los diabÃ©ticos. Dicen que la diabetes no se cura, pero creo que si se cambia lo que la origina, quizÃ¡ ocurra el milagro que se espera...

Muy bueno para Los que no lemons y no nos educamos

I RECOMENDED TO EVERY ONE!!

WOW GREAT INFORMATION THAT YOU WILL NOT GET FROM YOUR DOCTOR. Highly
RECOMMEND THIS BOOK TO EVERYONE
