Feet Of Clay: An Urban Fantasy Novel (Clans Of Shadow Book 2)

Synopsis

My name is Frank Butcher, and evidently when you save the world, it comes back for seconds. After I stopped a world ending apocalypse, my allies tried to cut open my chest with an axe. Kind of messed up, if you ask me. Thankfully, I've got a chance to return the favor. And I'm going to take it. Not because they're trying to magically reshape the natural laws that govern our planet. No, I'm doing this because trying to cut out my heart is not okay.*Book 1: Heart of Gold (ASIN: B01J67RWTO) is on sale for only \$2.99!*

Customer Reviews

With the first book ending in a cliffhanger, this second book started up right where the first one left off. While I really liked the first book, I found this one more enjoyable because I found Frank a little less arrogant and more fun in this book; he almost came off too arrogant in the first one. As with the first, this book was well-written and full of non-stop action with Frank getting used to having an artificial, magic-cancelling heart and being more comfortable with the world of magic. The only thing I'm still having an issue with is the villains not being more clear-cut. This in no way detracts from

the book, but I would like to have more of an idea on who is a villain and who is a hero. I am so excited to see what happens next as this one ended on a big cliffhanger. If you like fun, fast, and action-filled urban fantasy, give this book a try. You won't regret it! Highly recommend! Thanks to the author for the free e-book in exchange for an honest review. This same review will be posted on both Goodreads and .

Feet of Clay starts where Heart of Gold ends. Then it takes you to whole a new world! And what a world! I don't know what the authors were tripping on when they came up with it, but I hope they keep taking it! I'm still trying to wrap my brain around diammals. Frank and Gabby are still trying to save her son, Max. This time the Whites have him. Frank's mama is threatened (and you know that you don't threaten Frank's family, especially Mama!) so she comes along when Frank returns to the Enders HQ. Frank is his usual witty, snarky, funny, heroic self. There are a lot of twists and surprises that keep you on your toes. (Guess who is in the mysterious cube?) (What does it take to break a heart of gold?) While not exactly a cliffhanger ending, it does lead into the next in the series. I received an ARC in exchange for an honest review.

Poor old Frank, out of the frying pan and into the fire! Frank is great, so much fun to read about as he wings it through disaster after calamity. Adventure packed with plenty of gun fights and magical battles. A good choice for fans of fantasy without the gooey stuff (unless you're talking blown up goo). *This was an ARC, my opinions are my own.*

this is the second book in the series that really pulls you into Frank's weird and wacky life. Frank is the type of guy we all know and some what love, this time instead of saving the world he has to save himself from those who want his power - the artifact. it pulls you in and before you know it you're on the last page

An amazing thriller following Frank Butcher as he travels through strange dimensions. Meet the creatures known as diammals, truly fantastic beings straight from the mind of a gifted author. I was given a copy of this book in exchange for an honest review, and honestly it rocks!
