Customer Reviews

I bought this for a quick reference in my beginning Spanish class, it's comprehensive enough to refer to it quickly for anything to do with my homework, class activities and so forth. It's easy to use and I have bought these for French as well. I use it all the time, I highly recommend these for quick reminders or even quick lessons if you miss something.

I purchased this for a family member who is currently taking a Spanish class; they have found it to be quite useful. This is a six page, laminated, Quick Study Spanish Grammar information reference chart that includes...alphabet, prepositions, adjectives, verbs, nouns, adverbs, capitalization, syllabification, rules of stress and much more. It also has 3 holes already punched in the side so you can quickly add it to any binder. I would recommend this to anyone just starting to learn the Spanish language and who would like a quick and easy reference guide.

I bought this for my son to help him review for his high school required Spanish class. It contains a lot of useful information in a very compact space and its bright colors make studying at least a little pleasant.

I'm taking a Spanish class and this is a **MUST!** It's given me a great tool to study for my tests and supplemented my notes wonderfully. It includes everything you need for each level of Spanish classes. I'm in my third Spanish course and it's still very relevant and a great review for my previous courses. I highly recommend this for any Spanish student!

Quick Spanish Grammar guide to get you through the basic grammar rules while writing or conversing in Spanish. Bought the entire series in Spanish by BarCharts to go along with the fun Fluenz Latin American Spanish Learning program (also recommend it). There are a number of them and all are great. They are all very good tools to use while learning or for quick 5 minute review sessions whilst anywhere. Rote learning along with conversational Spanish with native speakers is best. Plastic bonded is easy to keep clean. Durable for on the go travel. Love them for quick referencing when needed, especially while writing in Spanish language for guest blog posts not written in your native tongue. Highly recommend these learning tools. Like any tools, unused they become useless. Use them, you can become proficient in the language you wish to learn. Use it or lose it and the same is held true for languages. Please pardon the same review for all the BarCharts. They are all great.

I bought this in the bundle of 3 and keep it in the front of my Spanish class notebook as a quick and handy reference. It obviously does not have everything one needs to learn a language, but it does hit many important words, rules, and conjugations. It is nicely laminated and I feel that I will use it often in my studies of the Spanish language.

I used to speak Spanish 40+ years ago. This was an excellent refresher. I wish it had conjugations in more verb tenses.

Perfect resource for all Spanish grammar on four pages, laminated and three holed punched...use it daily for reference...so happy to have it.
