The book just doesn't make sense. The writing is incoherent and way more wordy than necessary. You have to sift through mountains of unnecessary and unrelated examples just to get one or two important concepts out of every page. I just started the semester and can already tell its going to

suck since this is the only resource my instructor is using. Definitely wasted \$40 that I couldve spent on NCLEX study materials or something

Great book for a nursing class that I was taking! I love that I was able to rent this book and pay way less than if I bought it! It is easy to read and comprehend. Sending it back is easy as well, and completely free. I just saved the box that it came in, printed out the return label, taped it all up, and sent it on its way!

This was for a community health nursing class. Most of the chapters were easy to read, but I wish there was a key terms list in every chapter and/or a better glossary. I will say the free 2 day shipping and quick response by Warehouse deals.com was fabulous!

We used this in my Community Nursing class. I don't like it. Not much color in the book and many of the charts don't help to simplify the information.

I ordered the Community textbook for my nursing class and it arrived the next day. Super convenient and easy to return at the end of the semester.

Still has unused access code in it which is a huge bonus. First time renting, so far so good.

Rented this book for my online nursing class. Item arrived on time and as described.

Horribly written. So sorry you have to read this for a class.
